Continuation Sheet (PTOL-303)

Application No. 16/388,994

Continuation of REQUEST FOR RECONSIDERATION/OTHER 12. The request for reconsideration has been considered but does NOT place the application in condition for allowance because:

This is in response to Applicant Arguments/Remarks Made in an Amendment filed on 05/19/2020.

Claim 1 has been amended and Claim 19 was previously canceled.

Applicant argues that, the applied prior art fails to teach the newly added limitation that is, 1) a ventilation opening in the top side and 2) a surrounding bottom portion surrounding the left side and the right side which appears to be persuasive. However upon further search and consideration of prior art search, Applicant has been advised that the new prior art, Ashley et al. (US 10,547,036 B1) appears to disclose the applicant recited limitation. Ashley's figure 10 discloses the USB sheath with a left side, top side and right side with a surrounding bottom portion (item 46) surrounding the left side and the right side and the surrounding bottom portion is attached to the inner surface of the body or strap.

Applicant also identified the new limitation that is, "wherein the sheath has at least one ventilation opening on the top side" which appears to be persuasive. However, Applicant has been advised that the newly added limitation to an independent claim now changes the scope of claims thus raise new issues which would require further consideration and/or search of the subject matter to advance prosecution.

Applicant is also advised to consider appropriate actions on drawing objections for failing to indicate the item (1600)-a ventilation opening as disclosed in para [0066].
